

# Living Robots with EV3

## Annex 2: Busybox

**Version 0.1**

**Juan Antonio Breña Moral**

**10-May-2014**

## Table of Contents

|   |    |
|---|----|
| Introduction.....                       | 5  |
| What is a Operating System?.....        | 5  |
| LeJOS Project and Linux.....            | 6  |
| Future developments.....                | 6  |
| What is Unix?.....                      | 6  |
| What is Linux?.....                     | 6  |
| What is Busybox?.....                   | 7  |
| Getting Started with Busybox.....       | 8  |
| Introduction.....                       | 8  |
| What is SSH?.....                       | 8  |
| Using SSH to connect with your EV3..... | 8  |
| Default root password.....              | 9  |
| What commands can I use?.....           | 9  |
| Using the Filesystem.....               | 10 |
| Navigating in the filesystem.....       | 10 |
| Command: ls.....                        | 10 |
| Command: cd.....                        | 10 |
| The filesystem structure.....           | 11 |
| File permissions.....                   | 12 |
| Command chmod.....                      | 12 |
| File commands.....                      | 13 |
| Command mkdir.....                      | 13 |
| Command rmdir.....                      | 13 |
| Command vi.....                         | 13 |
| Command rm.....                         | 13 |
| Command cat.....                        | 13 |
| Command grep.....                       | 13 |
| Users and Groups.....                   | 15 |
| Users in the system.....                | 15 |
| User management.....                    | 15 |
| Command adduser.....                    | 15 |
| Command passwd.....                     | 15 |
| Processes.....                          | 17 |
| Command top.....                        | 17 |
| Command ps.....                         | 17 |
| Command kill.....                       | 18 |
| Command start-stop-daemon.....          | 19 |
| Network.....                            | 20 |
| Command netstat.....                    | 20 |
| Utilities.....                          | 21 |
| Command telnetd.....                    | 21 |
| Command syslogd.....                    | 21 |
| Command httpd.....                      | 21 |
| Exercises.....                          | 23 |
| References.....                         | 24 |
| About the author.....                   | 25 |
